

Continue the Training Process while on vacation from your dog

Board & Train Services are offered on a time- limited, intensive basis. They come in

three (3) different packages based on need and differ greatly from simple boarding services with respect to intensity and individualized attention. Needs assessment is done during the initial 3 hour in-home session which is a mandatory prerequisite of Board and Train.

Description:

For starters, your dog will be living in a home, not a kennel. Your dog will be under direct and indirect supervision of Professional Positive Reinforcement dog trainers whom you will already know from the initial session. Your dog's days will be filled with a menu of activities all designed to "fix" identified problems in an intensive and proactive format including but not limited to:

- Socialization and play with other dogs, a resident dog friendly cat or more, and a variety of people - kids and adults. Structure includes balance between working and plenty of opportunity to rest and absorb lessons.
- Continued training under the guidelines of The Six Pillars introduced in your initial session. This includes increasing reliability of manners in increasingly challenging ways incorporating distractions, distances & durations. Structure/routine and management styles used in Board & Train are all intended to enhance the learning or training experience. There will be a minimum of TWO (2) hours per day of individualized sessions spread out over each day. You are permitted to touch base by phone or email on a daily basis if desired. Not required.
- Reintegration. This is a **REQUIRED** 45 minute session provided upon pick up of your dog in the board and train residence and should be scheduled in advance to ensure enough time. In this session you will review the progress of your dog and receive a written document with protocols for reintegrating your dog back home with continuing success. As with other direct services, ongoing support by phone or email is available at no extra charge. (Reintegration option in your home including a delivery is available for additional fee, please ask for details).

This is a more intensive program for both more entrenched behavioral issues or just a continuing ed program for pups or dogs that will keep your dog in shape while you are on a vacation or otherwise need a break from the dog. Same services as in Package 1 but for a longer period of time.
